**Do you or members of your team sometimes swirl in an eddy of negative thinking,  
and create the exact opposite result of what you want?**

No one starts the day saying, "I am going to behave and act in ways that exhaust my energy and the energy of all the people around me." Sounds absurd doesn't it? And yet, that is the net effect of what happens day in and day out in offices everywhere - people go home with their energy and their enthusiasm drained and exhausted, having worked at less than optimal levels.

There is a secret to choosing to work with intention, passion and purpose. When we consciously choose thoughts that align all aspects of our work and life with what energizes us, we are more effective as leaders and team members. The challenge is to have a methodology to keep us intentionally focused and conscious throughout our day. Clarity's Thought Changing System provides a simple, easy to use system to SHIFT your thought energy to be more effective.

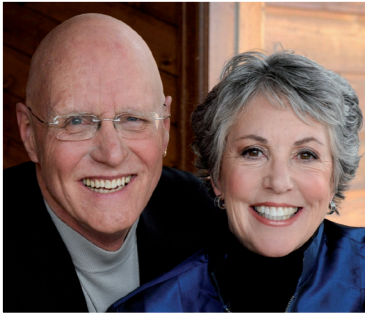

When everyone on a work team is focused on creating an above-the-line workplace, every one benefits and grows. An above-the-line culture creates energized, collaborative, dedicated and trusting co-workers who participate fully in the common purpose.

Here's the truth - It all begins with you. Whether you are a leader of one or a leader of 1000, it's your thoughts and your behaviors that impact everything. If you want to create peak performance, you must first create a peak experience - which begins with choosing your own above-the-line thoughts.

***If this sounds like exactly what you need, then Get Clarity's SHIFT is for you.***

**During this special free SHIFT workshop the participants will learn to use the Clarity Attention and Choice Point Guide™ to:**

- > Avoid the commonly accepted behaviors that actually inhibit everyone's performance.
- > Create a model of behavior and communication that delivers the vitality they want in their work and life.
- > Activate the deep energy that moves everyone to peak performance.
- > Energize more powerful relationships in work and life.
- > Stay focused on the thoughts, actions and behaviors that keep them vibrant, energized and on a positive pathway every day.
